

## CPAS' CPAS v5 Pension Administration Software Selected by SDCERA

Toronto, ON – January 15, 2008 – CPAS Systems Inc. has been selected by The San Diego County Employees Retirement Association (“SDCERA”) to implement its CPAS v5 pension administration solution.

CPAS Systems has signed an agreement with SDCERA to install CPAS v5, and provide related professional services including implementation and training, as well as associated project management and support services.

Prior to selecting CPAS, SDCERA engaged with Linea Solutions, Inc. to manage the software procurement phase. Linea Solutions utilized its proprietary 45-day Trial Phase between the top two RFP finalists, in which both finalists developed a Proof of Concept Benefit Estimator using actual SDCERA calculations. While Linea Solutions managed the process, the SDCERA team evaluated both solutions and concluded it by declaring CPAS Systems as the vendor of choice to implement its new pension administration system. SDCERA also selected Linea Solutions to provide project oversight, data conversion, and business analysis consulting for their system implementation. Linea Solutions is an information technology and business consulting firm specializing in Public Retirement Systems.

"SDCERA needed a new pension administration software solution that provided strong functionality out of the box, but also offered a flexible platform that could be configured to fit some very specific business processes," said Adrian Praysner, VP Sales and Marketing at CPAS. "We provided that kind of technology platform, and backed it up with a strong team that gave SDCERA the confidence that we could execute this important project."

David Rive, President and CEO of CPAS Systems Inc., added, "we are very pleased that SDCERA has chosen to join other California 1937 Act clients who use CPAS pension administration software. We pride ourselves at CPAS, in not only offering our customers a solution that is second-to-none, but also offering the expertise of our project teams consisting of outstanding developers and support personnel that work with our customers to make sure that the CPAS v5 solution will meet their every need."

### About CPAS Systems Inc

Founded in 1985, CPAS Systems Inc. is a global supplier of quality pension administration software solutions. CPAS provides advanced pension administration software for sponsors and administrators of single and multi-employer plans, as well as third party administrators and financial institutions.

CPAS software has been trusted as the solution of choice for over 140 organizations throughout Canada, the USA, the Caribbean, Europe, China, and Africa, administering more than 2000 plans, and more than 2,000,000 members worldwide.

### About SDCERA

The San Diego County Employees Retirement Association (SDCERA) is an independent association established by the County Employees Retirement Law of 1937. SDCERA provides retirement and associated benefits for eligible employees of the County of San Diego and other participating employers, and is responsible for collecting, depositing, investing and managing the retirement funds. The SDCERA team is responsible for the accounting of contributions and investment income under the direction and governance of the Board of Retirement. SDCERA also provides a wide range of member services to more than 34,000 active, deferred and retired members.
