

Tulare County System Now Hosted by CPAS

FOR IMMEDIATE RELEASE: CPAS Systems Inc. announced today that the Tulare County Employees Retirement Association's (TCERA), CPAS v5 pension administration system is now being hosted at CPAS' state of the art facilities in Brampton, Ontario. Final configuration to meet TCERA's specific requirements is still underway, and will be complete by the fall of 2011. In the meantime, the data and test environments are fully operational at the hosting site.

Hosting allows clients to extend their IT capacity at a predictable cost while focusing on their core business of servicing their membership. TCERA has online access to their CPAS v5 system via the Internet around the clock. The physical hosting site is operated by Q9 Networks Inc., whose data centers are best- in-class, and are used by a number of the world's major financial institutions.

While the physical infrastructure securing TCERA's pension system is at Q9, all support required to monitor, maintain and backup their CPAS v5 application, as well as to rapidly respond to questions, support system updates and resolve issues is provided by dedicated CPAS staff.

David Rive, Chairman and CEO of CPAS Systems Inc. said "This is a major milestone in the evolution of our company. Demand from new and existing customers has never been stronger for hosting services. CPAS is now in a position to provide our clients a cost-effective hosting and disaster recovery solution, lowering infrastructure costs while keeping mission-critical applications protected and available 24x7x365. Hosting TCERA's CPAS v5 application at our new facilities shows the type of proactive measures we are taking at CPAS to support our clients now and into the future."

About CPAS Systems Inc

Founded in 1985, CPAS Systems Inc. is an ISO 9001:2008 registered, global supplier of pension administration software solutions. Web-based for member, retiree and employer self-service, our CPAS v5 product is multi-lingual, multi-jurisdictional and multi-currency; it offers an integrated solution for administrators of all forms of defined benefit, defined contribution pension plans, and life and health benefits. CPAS v5's innovative design and Enterprise Tools allow clients to offer improved services to their clients and membership, while maintaining control of ongoing administrative costs.

CPAS software is the solution of choice for 150 organizations throughout the USA, Canada, the Caribbean, Europe, China and Africa. CPAS Systems Inc. software has been employed to administer more than 2000 plans, and more than 2,000,000 members worldwide, for over 25 years.
