

CPAS v5 – The Pension Software Solution

Founded in 1985, CPAS Systems Inc. is a global supplier of retirement benefit administration systems technology. The CPAS v5 software provides full web browser-based functionality, a user-friendly communication center for administrators, extensive help files and “wizards” that make the system easy to use. The CPAS v5 browser-based design provides the functionality and flexibility necessary to accept, manage and deliver all the information needed for members, employers, and administrators over the web. Among the unique features of CPAS v5 is its ability to offer a complete solution for the administration of defined benefit and defined contribution pension and insured benefits for employees and retirees.

- **CPAS v5 for Defined Benefit:** for multi-employer, single plan sponsor organizations, and third party administrators for defined benefit pension plans.
- **CPAS v5 for Defined Contribution:** used to administer defined contribution retirement and savings plans.
- **CPAS v5 for Group Benefits:** offers employers and third-party administrators a simple and flexible way to combine record keeping for benefit plan participants with premium billing administration for health and welfare benefits.

CPAS v5 provides comprehensive pension and benefit functionality and the requisite flexibility to tailor the application to your specific plan rules and business processes. As a fully scalable software application, CPAS v5 is used by small, medium and large-sized organizations and is available as an in-house solution installed at the client's location or an ASP solution.

If you are a small to medium sized organization and major time, administration efficiency gains and enhancing member satisfaction appeals to you, then a “CPAS Express” solution is in your future. This web based pension solution with its set of pre-configured options offers cost-effective and rapid implementation of our sophisticated pension administration software.
